Sample Handicap Computation (for the Pro Lady—Fourball):

Note: The World Handicap System requires full precision to be maintained in intermediary calculations. Rounding is performed only once and as the last step.

The Course Handicap is being calculated for **All 18** holes.

The initial index is **19.5**. The index is unaffected by the maximum index setting.

This player is on the **Gold - Ladies** tee, the slope is **123**, the rating is **71.2** and the par is **72**.

The Course Handicap is calculated as **index * slope / 113 = 19.5 * 123 / 113 = 21.225....** The CR - P adjustment of **71.2 - 72 = -0.8** is applied. The resulting Course Handicap is **20.425....**

The handicap adjustment percentage of **85.0%** is applied. The Playing Handicap becomes **17.361....** After rounding, the Playing Handicap is **17**.

The player handicap is unaffected by the maximum handicap setting (36).
